

MUHAMMAD SALMAN

Software Quality Assurance Engineer

2+ Years Experience | Manual Testing | API Testing | Playwright | JavaScript | Cypress | Maestro

m.salmanofficial2293@gmail.com | +92 327 093184 | LinkedIn: linkedin.com/in/msalman-sqa | GitHub: github.com/msalmanofficial2293-creator

PROFESSIONAL SUMMARY

Software Quality Assurance Engineer with 2+ years of experience in software testing, focused on delivering reliable, user-friendly and high-quality software through manual testing, API validation, web and mobile automation, exploratory testing and structured QA processes.

CORE SKILLS

Manual Testing • Functional Testing • Regression Testing • Smoke Testing • Exploratory Testing • UI Testing • Responsive Testing • API Testing • Bug Reporting • Test Case Design • Test Execution • Retesting • QA Documentation

TOOLS & TECHNOLOGIES

Playwright • JavaScript • Cypress • Maestro • Postman • Chrome DevTools • ClickUp • GitHub • HTML • CSS

PROFESSIONAL EXPERIENCE

Evolvo Technologies | SQA Engineer

August 2026 – Present | On-site

- Perform manual and functional testing across application modules.
- Execute regression, exploratory, and UI testing.
- Validate new features against expected requirements.
- Identify and document defects with professional bug reports.
- Perform retesting and regression verification of resolved issues.
- Support QA documentation and overall software quality processes.

Appverse Technologies | SQA Engineer

June 2026 – Present | Remote

- Perform functional and exploratory testing of web applications.
- Execute regression and feature-level testing.
- Perform API validation and investigate application/network issues.
- Test responsive behavior across different screen sizes.
- Identify, document, and track defects through the QA lifecycle.
- Collaborate with developers to verify fixes and maintain product quality.

Bright Digix | SQA Engineer

February 2026 – August 2026

- Performed end-to-end functional testing of web applications.
- Designed and executed test cases for new features and existing workflows.
- Conducted regression, smoke, and exploratory testing.
- Investigated UI, functional, and integration issues.
- Documented defects with severity, priority, reproduction steps, and supporting evidence.
- Validated fixes and performed regression testing before release.

Geek Private Limited | Junior SQA Engineer

November 2025 – January 2026 | On-site

- Executed functional and regression test scenarios.
- Created and maintained test cases and test data.
- Performed exploratory testing to identify functional and UI issues.
- Reported defects with clear reproduction steps and expected/actual results.
- Retested resolved defects and supported regression cycles.
- Collaborated with development teams during defect resolution.

Lab23 Technology | Internship + Job

August 2024 – October 2025 | On-site

- Performed functional and manual testing of web applications.
- Designed and executed test cases based on application requirements.
- Conducted regression, smoke, and exploratory testing.

- Identified, documented, and tracked software defects.
- Verified bug fixes through retesting.
- Collaborated with developers to communicate and investigate issues.
- Performed UI and usability validation across application workflows.

SELECTED QA PROJECTS

Trading & Funding Platform QA — Real-world QA testing across trading terminals, payment flows, KYC, challenge management, risk management, CRM, support and responsive/mobile interfaces.

API Testing — REST API testing using Postman with positive and negative scenarios, request/response validation and API issue investigation.

Web Automation — Web automation using Playwright with JavaScript and Cypress.

Mobile Automation — Mobile application automation and functional validation using Maestro.

TaskFlow — Phase 1 QA Demo Project — End-to-end manual QA demo engagement covering requirements analysis, test planning, test case design, traceability, exploratory testing, defect reporting, regression planning and test execution reporting.

QA PROCESS & DOCUMENTATION

Requirement Analysis → Test Planning → Test Case Design → Test Execution → Defect Reporting → Retesting → Regression Testing → Release Recommendation

Test Plans • Test Cases • Requirements Analysis • Traceability Matrix • Regression Suites • Bug Reports • Test Execution Reports

CERTIFICATION

TestDome Certificate — Verified skills assessment. Certificate: www.testdome.com/certificates/6849c1f2fbef4d0da8248840bbb71dba
